E-PRESCRIBING/MEDICATION HISTORY CONSENT FORM

The providers at Campbell Family Practice use an electronic medical record system that allows electronic prescribing of medications. Prescriptions are sent to your pharmacy through a secure connection (RxHub) which improves the accuracy and timely transmission of your medical information. E-Prescribing greatly reduces medication errors and enhances patient safety. There are several standards that have to be included in an e-prescription program. These include:

- **Formulary and benefit transactions-** Gives the prescriber information about which drugs are covered by the drug benefit plan.
- **Medication history transaction-** Provides the physician with information about previous and current medications the patient is taking to minimize the number of adverse drug reactions.
- **Fill status notification-** Allows the prescriber to receive an electronic notice from the pharmacy telling them if the patient's prescription has been picked up or partially filled.

MY SIGNATURE CERTIFIES THAT I HAVE READ AND UNDERSTOOD THE SCOPE OF MY CONSENT AND THAT I AUTHORIZE THE ACCESS OF MY MEDICATION HISTORY.
